

The ECHO Scholarship Award

The ECHO program's \$ 1,500 scholarship award is intended to support students who have demonstrated a commitment to completing their education and have certain financial hardships that make it difficult to pay for the cost of attending college. Facilitated by the East Texas Area Health Education Center's Coastal Regional Office, it is a grant funded through the Texas Higher Education Coordinating Board and provides another line of support for students who are interested in pursuing a career in health care. In conjunction with participating high school counselors and school Health Occupation Student Associations (HOSAs), the ECHO Program requires students to complete career-related meetings, projects and other hands-on activities throughout the school year.

This award will be provided via the East Texas Area Health Education Center's Coastal Regional Office. The award will be used to help reach each student's educational goals and can be applied toward any education-related costs, including textbooks, tuition, lab fees, uniforms, etc.
